

# ECOFORCE LEADERSHIP CLUB

An Environmental Leadership Series for Youth Aged 15-18

EcoForce is a free program for Calgary youth ages 15-18 who are looking to become environmental leaders in their communities. Come explore how you can impact positive, sustainable change in your community! It's free to register although spots are limited to ensure small group peer to peer learning, and one on one mentorship with our environmental educator.

Workshop Schedule: 3-5 spring sessions will be offered between April 15-June 30

Each session will explore multiple sustainability topics and issues through presentations and interactive learning. EcoForce supports youth-centered leadership and innovation, and helps youth implement initiatives that move their communities towards a more sustainable future. Participants will be supported in developing a community project that addresses a topic of their interest and passion.

Dates and times will be offered to best match the interest of the participants.
